Primary Input	Maximum Output	Rated Output and Duty Cycle	Wire Feed Speed	Cable Length	Consumables	Wire Diameters	Dimensions		Weight (Including Power Cable)			
							H: 16"	H: 406,4mm	L: 12"	L: 304,8mm	W: 3.5"	W: 88,9mm
0-12VDC	250A (DC Output Only)	200A @ 60%	800 IPM (Max)	20' (6,09m)	14H Series TWECO style	.030" (0,8mm) - .047" (1,2mm)						

Welding Aluminum: No TIG Welder Required

Turn your MIG welder into an aluminum welding machine. If you can MIG weld, you can weld aluminum with this spool gun.

Rugged and Reliable

Your new spool gun is durable and built for heavy use. The housing is extra thick to handle the wear and tear of use in the most demanding work environment.

TWECO Compatible

The spool gun is compatible with TWECO 14H Series consumables, which are widely available and inexpensive.

Ergonomic

Your new spool gun is compact, light, and built to offer advanced comfort across several hours of hard work both in and out-of-position.

User-Friendly

Whether you're a novice or an experienced professional, your new spool gun was designed to be easy to use and enhance the efficiency of your workflow for less down time, and more time getting the job done.

Weld Up To 1/2"

This spool gun can weld thin to 1/2" sheet plate for a variety of applications.
