

ITEM# 345

Forney's Large Welding Cart is a versatile and robust solution for your welding equipment storage and use. Engineered to hold Forney's 4.5 CFM Fornair® Air Compressor or 2.5 CFM Fornair® Air Compressor, and optimized for any Forney welder up to 80 lbs.

Additionally, this welding cart accommodates a gas bottle up to 250 CF or 9.5" in diameter. With three shelves, this cart allows you to create an all-in-one mobile metalworking station. This cart comes equipped with rubber-matted shelves, tank securing chain, and four durable steel casters, two of which have brakes. Add the optional accessory tray to maximize storage and convenience.

Thoughtfully designed by Forney engineers with best-in-class durability, the Forney Large Welding Cart provides a robust and comprehensive solution to your welding setup.

## Product Specifications:

- Assembled Dimensions: 12" W x 44" H x 44" L
- Max Recommended Weight Capacity: 375 lbs.
- Top Shelf Max Weight Capacity: 80 lbs.
- Middle Shelf Max Weight Capacity: 80 lbs.
- Bottle Shelf Max Weight Capacity: 125 lbs.
- Bottom Shelf Max Weight Capacity: 90 lbs.
- 1.25 mm thick steel

## Accessories:

### Welding Cart Accessory Tray

ITEM# 34501

Optional accessory tray for Forney's Medium and Large Welding Carts provides convenient storage and organization for tools, equipment, and consumables, enhancing efficiency during welding tasks.
